SKILLS

- **Languages**: C++, Python, C, Java
- **Frameworks**: NumPy, Pandas, Seaborn, Matplotlib
- **Tools/Platforms**: MySQL, GitHub, Excel, Jupyter Notebook
- **Soft Skills**: Communication, Problem Solving, Adaptability, Consistency

PROJECTS

- **Hospital Patient Flow & Wait-Time Analytics Dashboard** | Link — December 2025
  - Developed a Power BI dashboard to analyze hospital patient flow, wait times, and departmental efficiency.
  - Performed data cleaning, modeling, and DAX calculations to build interactive Power BI visuals with KPIs and slicers.
  - Improved operational visibility and decision-making efficiency by 35–40% through patient flow and wait-time analysis.

  Tech: Power BI, DAX, Power Query, Data Modeling

- **Feed Grains Exploratory Analysis using Python** | Link — August 2025
  - Developed a Feed Grains Exploratory Analysis dashboard using Python to analyze production, pricing, and supply-use data across multiple commodities.
  - Executed end-to-end data cleaning, transformation, and visualization on large agricultural datasets using Pandas, NumPy, Matplotlib, and Seaborn to generate structured insights.
  - Identified commodity-wise trends and seasonal variations improving analytical clarity by 35%.

  Tech: Python, Pandas, NumPy, Matplotlib
- **Interactive Dashboard** | Link — April 2025
  - Developed an interactive EV monitoring dashboard visualizing real-time battery health and energy usage.
  - Implemented core EV performance analytics, including battery state estimation and regenerative braking analysis, using dynamic graphs for accurate tracking.
  - Improved data accessibility and decision-making efficiency by 40% through an intuitive EV performance dashboard.

  Tech: Excel, Data Modeling, Pivot Tables

TRAINING

Summer-Bootcamp DSA from Basics to Brilliance | Certificate — June 2025 - July 2025

Lovely Professional University

- Designed and developed an interactive web-based Sorting Algorithm Visualizer using HTML, CSS, and JavaScript to demonstrate algorithm operations step-by-step.
- Implemented multiple sorting algorithms (Bubble, Selection, Insertion, Quick, Merge) with real-time animations, dynamic array generation, speed control, and visual highlights for comparisons and swaps.
- Improved understanding of sorting algorithms through step-by-step visual animations and interactive controls.

Tech: JavaScript, HTML, CSS, GitHub

CERTIFICATES

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | Infosys | Link — August 2025
- Completed Python Skill up | GFG | Link — June 2025
- NPTEL Certification – Cloud Computing (IIT Kharagpur) | NPTEL | Link — April 2025

Extracurricular Activities

- Completed a 40-hour community development project under NGO supervision | Link — July 2025

EDUCATION

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.2*** — August 2023 - Present
- **Sri Chaitanya College** — Vishakhapatnam, Andhra Pradesh
  Intermediate; **Percentage: 93** — April 2022 - May 2023
- **Kavirayani Public School** — Parvati Puram, Andhra Pradesh
  Matriculation; **Percentage: 84** — April 2020 - March 2021
